

## CAPABILITY STATEMENT

### OUR APPROACH

Mineplex specialises in providing expert and pragmatic support to the mining industry in the areas of risk management, safety management, mine management, and learning & development. Our goal is to arm our clients and their people with the knowledge to make informed decisions by knowing and managing their risks.

### RISK MANAGEMENT

- Development & implementation of:
  - Risk management frameworks and associated processes
  - Critical Control frameworks
  - Governance and assurance processes
- Independent facilitation of risk workshops and risk reviews

### SAFETY MANAGEMENT

- Safety & Health Management Systems development and implementation
- Mine Operator SHMS effectiveness and implementation auditing
- Legislation for Supervisors workshops
- Incident response and operational recovery
- Incident investigations and post-event analysis
- Supervisor effectiveness auditing & mentoring

### MINE MANAGEMENT

- SSE coverage
- Brownfields & Greenfield project support
- Contract management
- Contract & Contractor auditing
